**E-mail: archraphr@gmail.com,**

## **PERSONAL INFORMATION**

---

**Gender:** Male

**Marital Status:** Single

**Date of birth:** 16<sup>th</sup> February

**Nationality:** Nigerian

**State of origin:** Osun State.

## **EDUCATIONAL QUALIFICATION**

---

Ahmadu Bello University, Zaria, Kaduna State

B.Eng. Chemical Engineering

2013 - 2018

## **PROFILE**

---

As a skilled developer, I have extensive experience in building user interfaces (UIs) using React, a popular open-source JavaScript library developed and maintained by Facebook. With a deep understanding of React's component-based architecture and virtual DOM, I have successfully built various web applications (such as cross-border Payment system, E-learning system, Todo App, etc.) for companies such as ArchIntel Technology, WestPay-Global, etc.

My proficiency in React extends to its key features such as server-side rendering, reusable components, and the ability to work with a wide range of third-party libraries and tools. I have leveraged these features to deliver high-quality projects with optimal performance and faster rendering times.

I have also integrated React with other technologies such as Redux for state management, Firebase, Axios, Material UI, and etc. for data querying, resulting in more efficient and scalable applications. Additionally, I have contributed to the general community by sharing an Application to manage daily activities.

With a passion for staying up-to-date with the latest developments in the React ecosystem, I am committed to delivering top-notch solutions that meet the needs of businesses and users. My expertise in React makes me an ideal candidate for building modern and robust applications that delight users and meet business objectives.

## **WORK EXPERIENCE**

### **COURE SOFTWARE & SYSTEM LTD**

#### **Position Held: Support intern (NYSC)**

- Processing large data using Excel, etc.
- Adding mobile number to DND portal.
- Providing solutions and responding to client issues.
- Ensure seamless operations of Computer applications

### **WESTPAY GLOBAL**

#### **Position Held: Full-stack developer (FE-Heavy)**

- Code optimization.
- Collaborate with other team to solve major issues in the codebase.
- Building reusable components using React, TypeScript, etc.
- Integrating React with external libraries such as Matera UI, Formik, etc.
- Integration of external services such Twilio to API, etc.

### **ARCHINTEL TECHNOLOGY LTD**

#### **Position Held: Developer**

- Developing and implementing the company's strategic plan. Developing a long-term strategic plan, making key business decisions, and setting priorities for the organization.
- Managing the company's finances.
- Leading the company's operations.
- Fostering innovation and driving growth.
- Building reusable components using React, TypeScript, SASS, etc.
- Integration of external services such Twilio, etc.
- Building RESTfull API project using C#-dotnet, entity framework.
- Building databases such as Postgresql, MSSQL.

## **RELEVANT SKILLS:**

### **IT & Professional Skills**

- Flutter
- JavaScript, React JS, Typescript JS, Node JS
- C# - (C sharp), Entity framework, DotNet Core
- MySQL, MSSQL, PostgreSQL, MongoDB
- RESTful API, HttpClient
- Docker
- JAVA, Python, LARAVEL
- HTML, CSS, BOOSTRAP, SASS
- Microsoft words, Excel, Power point, Mozilla Firefox.

## Projects

- Built <https://archdemy.netlify.app/> using Material UI, TypeScript, ReduxToolkit, etc.
- Built <https://archintel-todo-app.netlify.app/> using ReactJS, pure CSS, Javascript, localStorage as database.
- Built <https://archintel.netlify.app/> using ReactJS, Sass, pure CSS, Javascript, FireBase.
- Built <https://archcode.netlify.app/> using ReactJS, Sass, pure CSS, Javascript.
- Built some Python scrapping script (<https://github.com/ArchSharp/pythonProject> )
- Copied large data from different files into a single file using Pandas, xlsxwriter, and csv in python programming language (<https://github.com/ArchSharp/pythonProject/blob/main/CopyMultipleFileIntoOne.py>).
- Built a website using PHP, LARAVEL, CSS, BOOSTRAP, HTML, JavaScript, MYSQL, etc (<https://github.com/ArchSharp/ForexWebsite> ).
- Integrate Flutterwave Payment gateway into a website (<https://github.com/ArchSharp/ForexWebsite>).
- Built some CRUD APIs (<https://github.com/ArchSharp/AdvancedAPI>)
- Assisted in building WhatsApp business using 360Dialogue - WhatsApp Business API & Mobile Automation Solutions, built with C# (<https://github.com/xtoblizi/GamaWabs247>).
- Assisted in interpreting several data to reveal historical pattern, forecast possible futuristic pattern using EXCEL.
- Built HttpClient service to consume RESTfull API end-points (<https://github.com/ArchSharp/HttpClientProject> )
- Consuming external API endpoints using cURL (<https://github.com/ArchSharp/ForexWebsite>).
- Other C# project
  - <https://github.com/ArchSharp/GuessDOB>
